REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Wednesday, February 29th, 1888.

I. SESSION 1886–87.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1611, being a decrease of 224 on that of the preceding Session. Of these 1016 were Students in the College, and 595 Pupils in the School. Of the Students, 340 belonged to the Faculty of Medicine, 105 being new Students: in the Faculties of Arts and Laws and of Science there were 676 Students, 365 being new Students. The largest number of Boys in the School in any one Term was 519.

As compared with the preceding Session these figures show a decrease of 43 Students in the Faculty of Medicine, and an increase of 5 in the new Students. In the Faculties of Arts and Laws and of Science there was a decrease of 133 Students, and a decrease of 66 in the new Students. There was a decrease of 48 in the number of Pupils in the School.

The Fees received (exclusive of those for Clinical Instruction) amounted to £29,674 11*s.* 6*d.*, being £1693 2*s.* 6*d.* less than in the Session 1885–86.

The details for the two Sessions compared were as follows:—

	1886–87.			1885–86.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	6,394	10	0	5,867	18	6
Faculties of Arts and Laws and of Science.....	10,944	13	6	12,412	11	6
School	12,335	8	0	13,087	4	0
	£29,674	11	6	£31,367	14	0

In addition to the above-stated amounts, the sum of £2102 2*s.* 0*d.* was received for Clinical Instruction in the Hospital, making a total of £8,496 12*s.* 0*d.* paid by Students of the Faculty of Medicine in the Session.

The total payments to Professors, Teachers, and Masters amounted to £20,172 19*s.* 9*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division at the June Examination for Matriculation in the University of London, was given originally by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving

the Prize from year to year. It was awarded last year to A. S. Hill, who gained the 19th place in the Honours Division.

In 1886 at the January Matriculation Examination two places in the Honours Division and at the June Matriculation Examination six places in the Honours Division were gained by pupils of the School, the West Scholarship in English being awarded to one of the six, G. Berry.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1882–83.....	568	582	610	587
1883–84.....	582	576	566	575
1884–85.....	561	556	555	557
1885–86.....	546	550	541	546
1886–87.....	507	511	519	512

From the Tables submitted it appears that out of a total of 595 boys, 23 were entered in the Black Book last Session, the total number of entries being 33.

Four Scholarships, defraying half the cost of admission to the School for three years, will in July be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not.

II. GENERAL FINANCES.

The Council regret to state that the excess of expenditure over receipts amounted in the past year to over £2000. This is not in consequence of increased *general* expenditure (which has been less than previously), but must be attributed (i.) to the cost of additional building in the Medical department, (ii.) to a very considerable reduction in the receipt from fees. From fees the net loss to the College funds was £900, the School deficiency being £557, and that of the College £343, while the alterations and new building at the Medical end cost £1300. The charge in the accounts of £4300 11*s.* 2*d.* for Additions, Alterations, and Repairs to Buildings, Fittings, and Furniture, includes the above sum of £1300, and £160, the cost of new boilers for the School. Advertising has cost £60 extra, the School recreation-ground £34 extra, and a special additional grant of £150 has been made to the Physical department.

On the other hand, the Council have made every effort to save where possible. In *general* additions and repairs about £500 has been saved. Printing and stationery have cost less by £250. Postage is £30 less. Rates show a decrease of £43 and the absence of Law expenses makes a difference of £105.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1888, have been as follows:—in the Faculty of Medicine, 280, of whom 56 are new Students; in the Faculties of Arts and Laws and of Science, 602, of whom 298 are new Students: in the School, in Michaelmas Term, 505, of whom 66 were new pupils; in the present Term, 473, 47 being new pupils.

The College Fees received to February 1st are £3411 19*s.* 6*d.* in the Faculty of Medicine, and £9012 3*s.* in the Faculties of Arts and Laws and of Science.

THE COUNCIL.

The Council regret that, through resignation, they have lost the services of several valuable members, including Lord Kimberley, Lord Justice Fry, and Sir Julian Goldsmid, who held the offices respectively of President, Vice-President, and Treasurer; while the retirement of Mr. Franks, who does not offer himself for re-election, will long be felt in the Slade School, with which he has been from its foundation intimately connected. The College—and more especially the Indian School—has also suffered severe loss by the death of Sir Barrow Ellis.

DEATHS OF MEMBERS OF THE COLLEGE.

Mr. R. J. Bagshaw.
Mr. S. L. Behrens.
Mr. W. H. Burnand.
Mr. J. Crosby.
Sir Barrow Ellis.
Dr. Wilson Fox.
Rev. R. Halley.
The Right Hon. Lord Kinnaird.
Dr. F. J. Lowes.
Right Hon. Sir J. Mellor.
Mr. R. Pitt.
Mr. R. Quain.
Mr. J. C. A. Scott.
Mr. W. Shaen.

PROFESSORSHIPS.

By the lamented death of Dr. Wilson Fox, the Holme Professorship of Clinical Medicine became vacant, and Dr. Sydney Ringer, F.R.S., was appointed to fill it, Dr. Charlton Bastian, F.R.S., succeeding Dr. Ringer as Professor of Medicine. Dr. Gowers, F.R.S., has been appointed a Professor of Clinical Medicine; and Mr. Victor Horsley, F.R.S., has been appointed Professor of Pathology in consequence of Dr. Bastian's resignation of the Chair of Pathological Anatomy. Dr. John Williams has succeeded Dr. Graily Hewitt as Professor of Midwifery, and Mr. Bilton Pollard has been appointed Teacher of Practical Surgery, *vice* Prof. Berkeley Hill resigned, and Dr. W. J. Mickle has been appointed Lecturer on Mental Diseases.

The resignation of Prof. Williamson has been followed by the appointment of Dr. William Ramsay to the Chair of Chemistry. The lectureship in Tamil has been filled by the appointment of Mr. J. Bradshaw; and Mr. Hurrychund Chintamon has been appointed Teacher of Marathi.

THE PROPOSED ALBERT UNIVERSITY FOR LONDON.

Members of the College are aware that a joint Petition has been presented to Her Majesty in Council by University College and King's College for the foundation of the Albert University of London.

The Council desire to take this opportunity of stating that the action of the two Colleges in this matter has not been dictated by any feeling of hostility to the London University, with whose functions as an Imperial Examining Body they have no wish to interfere. The object of the two Colleges—admittedly of University rank—is to provide that residents in London who have sought instruction within their walls may not have to apply to an entirely distinct Institution for their degrees.

QUAIN BEQUEST.

By his will, dated August 5th, 1887, Mr. Richard Quain, F.R.S., who died September 15th, bequeathed almost the whole of his fortune to four Trustees, upon trust, to apply the annual income in "the promotion and encouragement in connection with University College, London, of General Education in modern languages (especially the English language and composition in that language) and in Natural

Science." The amount of the bequest will ultimately be about £75,000, of which about £60,000 will become immediately available.

The Trustees are authorized to carry out the Testator's wishes "either by Salaries or other payments to those who teach as by endowing Professorships, or by pecuniary aid to those who are being taught as by endowing Scholarships or Fellowships, or in any other manner which the Trustees may in their absolute discretion think proper;" and they are requested to place themselves in communication with the Council of University College with a view to preparing a scheme for carrying out the objects of the bequest. The Testator desires that in any statement of the foregoing bequest the name of his brother, the late Sir John Richard Quain, shall be associated with his name.

The Council are now in communication with the acting Trustees—Lord Justice Fry, The Hon. George Brodrick (the Warden of Merton), and Sir George Young—as to the best manner of employing the funds, and they trust that such a scheme may be contrived as will promote the objects which Mr. Quain had especially in view, and will at the same time promote the general prosperity of the College.

AMENDMENT OF BY-LAWS.

An Extraordinary General Meeting of Members of the College was summoned for January 11th last, to consider the question of altering By-Law II. § 22, by substituting the word "six" for "three." A quorum not being present, the meeting was adjourned till January 14th, when the following resolution was moved by the President, seconded by Sir George Young, and carried unanimously:

> "That By-Law II., Clause 22, be amended by striking out the word *three* and inserting *six*."

The result of this decision is that six Professors may now be qualified to sit on the Council of the College.

BUILDING DEBT.

Although the debt is being gradually decreased by the annual application of about £850 from the income of the Goldsmid Fund, the Council desire to remind the Members of the College that a sum of £7,103 is still owing in respect of the North Wing, and that there is consequently a heavy annual charge for interest and repayment of that debt. Under the will of the late Sir Barrow Ellis, K.C.B., the Council have received £1,000 towards the reduction of the debt.

PATHOLOGICAL DEPARTMENT.

In this Department, Professor Bastian, having resigned the Chair which he held for 20 years, has been succeeded by Mr. Horsley, F.R.S., who had been for 6 years Assistant Professor, and had organized and conducted the class of Practical Pathology.

THE MATHEMATICAL THEATRE.

The Mathematical Theatre has been re-seated in accordance with the design, and partly at the cost of Prof. M. J. M. Hill. The alteration has been attended with complete success.

MATERIA MEDICA MUSEUM AND THE SHARPEY LIBRARY.

A change has also been made in the locality of the Sharpey Library, which has been transferred to the Arts end of the College, while the Materia Medica Museum now occupies the room at the Medical end, vacated by the removal of the Sharpey books. The Council desire to remind Members of the College of the somewhat backward condition of this necessary Museum, for the maintenance of which no special funds have been provided.

THE REFRESHMENT-ROOM.

Alterations in the Refreshment Room were carried out during the Christmas vacation, which have had the result of considerably enlarging it. A part of the adjoining room has been thrown into the Refreshment-room, and the Council trust that the accommodation in that department will be found equal to the demand.

PHYSICAL AND ELECTRICAL TECHNOLOGY.

A very important addition to the means of instruction in Physics and in Electrical Technology was made in the course of last summer, consisting of a small electrical installation including a Crossley's Otto gas-engine, a dynamo-machine specially constructed by Messrs. Crompton and Co. of Chelmsford, a secondary battery of thirty cells, an electric-arc lamp, incandescent lamps, photometer and the necessary leads, switches, and measuring-instruments. The whole installation has been carried out according to the plans and under the direct supervision of Prof. Fleming, and through his zealous exertions everything required was obtained upon specially advantageous terms from the makers. The whole outlay has thus been kept down to £225. Of this £150 was provided by a grant from the College funds, and the remainder from the Apparatus Fund at Prof. Foster's disposal.

Though this electrical outfit is upon the smallest possible scale that would be of practical use, it is of very great value in connection with Prof. Fleming's courses on Electrical Technology, both as enabling him to illustrate experimentally the fundamental points dealt with in his lectures, and to give his students actual practice in the management of electrical appliances. It forms also a very important addition to the resources for the teaching of pure Physics. It is to be hoped that it will form the beginning of an important school of Electrical Engineering, for the development of which the College possesses many advantages probably not to be met with in an equal degree elsewhere.

BARLOW LECTURES.

The Barlow Lecturer, the Rev. E. Moore, D.D., Principal of S. Edmund Hall, Oxford, will resume his lectures on Dante's "Divina Commedia" on May 16th. The lectures are open to the public without payment or tickets.

PEEL MEMORIAL FUND.

The income of this Fund in 1887 was expended in the purchase of books, &c., presented to the Seacombe Institute, Cheshire, the Skipton Mechanics' Institute, and the Wellingborough Literary Institute.

LIBRARY.

The Council are greatly indebted to the Philological Society for the handsome present of their Library to the College; also to Mrs. Stirling for her present of books from the library of her late father, Mr. Arthur Grote. It is with much satisfaction that the Council are able to report that the Catalogue of Surgical Specimens, which Prof. Marcus Beck was good enough to undertake to prepare, is now finished and in the hands of the students.

HOSPITAL.

In connection with the contemplated rebuilding of the Hospital, an influential Committee has been appointed to forward the movement, comprising representatives of the Council, and including the President, J. Eric Erichsen, Esq., F.R.S., of the Hospital and Medical Committees, of the local Clergy and Members of Parliament, and leading inhabitants of the neighbourhood.

As before reported, rebuilding will not be commenced until £30,000 have been received or promised, towards which sum the Treasurer of the Hospital, or the Secretary, will most gratefully acknowledge contributions.

The "Old Students' Jubilee Fund" is making progress, as no less than £200 have been promised by Students of the Hospital who are practising in the Colonies, in addition to £560 already received.

The "Wakley" Convalescent Home will be opened within the next two or three months for the benefit of Patients from the Hospital.

The Festival Dinner under the presidency of the Rt. Hon. G. J. Goschen, M.P., was most successful, as contributions were received amounting to £2106.

Various changes in connection with the Medical Staff of the Hospital have taken place during the past year.

Dr. Charles J. Hare, whose official connection with the Hospital dates as far back as the year 1850, and who held Office as one of the Staff of the Hospital up to 1867, continuing his connection as a member of the Hospital Committee up to the present time, was, upon the unanimous recommendation of the Hospital and Medical Committees, appointed a Consulting Physician to the Hospital.

Dr. Graily Hewitt, who has also been an active worker since the year 1865, retired from the position of Obstetric Physician, and was appointed Consulting Obstetric Physician to the Hospital.

The Committee deeply deplore the loss sustained by the premature death of the late Dr. Wilson Fox, Senior Physician to the Hospital, whose first connection with the College and the Hospital dated as far back as the year 1861.

In consequence of the above vacancy, Dr. Gowers, the Senior Physician in charge of Out-patients, was appointed to the care of beds.

Upon the retirement of Dr. Graily Hewitt, Dr. John Willliams was appointed to the charge of beds, and Dr. Herbert R. Spencer was appointed Assistant Obstetric Physician.

Dr. Angel Money was appointed Assistant Physician to the Hospital consequent upon the promotion of Dr. Gowers.

Mr. Bilton Pollard, who had done good service to the Hospital in the position of Surgical Registrar, was appointed Assistant Surgeon.

Dr. C. J. Arkle was appointed Resident Medical Officer, vice Dr. Henry Carr-Maudsley, who had held the office for five years.

The Committee regret that the year 1887 was closed with a debt exceeding £15,000, and they earnestly appeal to all those interested in the charitable work of the Hospital to assist them to clear off this heavy load of responsibility.

Return of Services of the Members of Council from February 1, 1887, to January 31, 1888, inclusive.
